

GOING TO SEE THE DENTIST AT THE HOSPITAL

Today I am going to see the dentist at the hospital

This is where I will park my car

I will go inside and let them know I am here

There is a fish tank I can look at while I wait for my name to be called

When my name is called I will walk through a hallway

I will come into this room with a nurse and they will check that I am well.

There are lots of beds, one of them will be my bed, it will have my Dentists name on it.

This is the bathroom I will use if I need to go to the toilet before seeing the dentist

Dr Tim the dentist will say hello to me when I am on my bed.

I will be moved in my bed through a hallway, I have to remember to relax and stay laying in my bed.

This is the room where I will have my teeth checked while I am asleep. I will meet some nice people in here.

This is the room I will be in when I wake up, I will stay here a little while until I go home.
