

HAVING YOUR TEETH CHECKED AT THE DENTIST

This is my chair to sit on at the dentist, I have to remember to sit still so the dentist can check my teeth

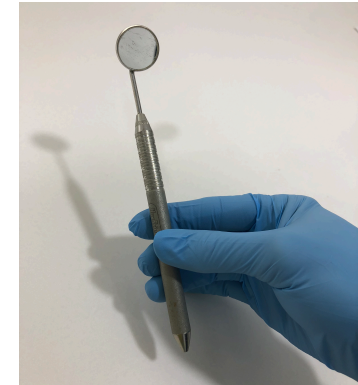

The dentist will wear glasses, gloves and a mask to get ready to check my teeth

The chair will go back so I am laying down looking up at the roof and a light will be turned on.

The dentist will use a small mirror to check my teeth

I have to remember to open wide and stay still to show the dentist my teeth

If I want to I can hold toys such as a ball while the dentist checks my teeth

The dentist will use this instrument that gently blows air on my teeth.

I will hear the air but it will feel gentle so that the dentist can see all of my teeth really well
